See the Day

When you look at me Tell me what you see Do you see no love at all? Or do you see in me What you always see In every girl that you fall for

I will show you how love is meant to be Just watch and learn and listen to me

Will you ever see the day Heartache leads astray Good love will always come from me Will you ever learn to love Without a little doubt Good love will always come from me

When you look away Is it mean to say That she haunts you night and day And does it hurt your heart When I say let's start To heal the part that's been torn

Don't you see that I'm really worth a try And I say to you I know just what to do

Will you ever see the day Heartache leads astray Good love will always come from me Will you ever learn to love Without a little doubt Good love will always come from me

Don't you see that I I'm really worth a try And I say to you I know just what to do

Will you ever see the day Heartache leads astray Good love will always come from me Will you ever learn to love Without a little doubt Good love will always come from me

Will you ever see the day Heartache leads astray Good love will always come from me Will you ever learn to love Without a little doubt Good love will always come from me
