

## I'm Alive

## Girls Under Glass

In this world I am lonely and lost  
Life is suspicious never giving my trust  
In this society I am imprisoned by my mind  
I am searching for the sense of being  
How can I find?  
But I am alive, hold me, when I am falling  
I am alive when I take my chance  
I am alive, rise up, when I am crawling  
I am alive for you  
In my darkest moments asking myself who I am  
Asking for the way back into light  
Sometimes again but
