

Is This The Place

Girls Under Glass

And I close my eyes I see more than I see
Then I see my life and I feel more than I feel
I feel the center of me that peace inside
I remember the time
When life was more like a fight
Is this the place we will stay forever
Or is it a dream I was waiting forever
It feels so good and I never wish to wake up
And it feels so real, I never want it to stop
I opened my eyes when I smelled my breath
And I saw the sky but my feels dead
My body feels warm and save I tried to scream
But my body hurt and I knew it was a dream
In a dream
Is this the place we will stay forever
Or is it a dream I was waiting forever
It feels so good and I never wish to wake up
And it feels so real, I never want it to stop
