

# When I Think About You

Girls Under Glass

We stay together  
Together in my dream  
When we were closer love was to be seen  
Yeah I can feel you  
Hear your distant voice  
From another world love was our choice

When I think about you  
When I close my eyes  
I can see your smile I feel you nearby  
When I think about you...  
Then I recognize how much I love you

Miles from nowhere  
Nowhere where you are  
This lonely highway my thoughts escape so far  
Another world another life is in my head  
Through all that distance it's true what I said
