

# Ghost Mouth

Girls

I've got nothing to do  
And nobody to see  
Nowhere to go  
And nobody to be

I'm on a ghost train  
In a ghost cloud  
And I don't know how to get out  
And get into heaven

I had a beautiful girl  
A musical dream  
She wanted it all  
But she didn't want me

Now I'm a ghost man  
In a ghost town  
And I just wish I could get out  
And get into heaven

I like the bad boys  
In the big towns  
I like the bad bands  
And their big sounds

I've got a ghost mouth  
With a ghost frown  
And I'm too scared to get out  
And get into heaven

Gotta quit staying home  
Gotta get outta here  
It just hasn't been home  
Since you haven't been here

I knew it when I heard it the first time  
I knew it when I heard it the last time  
Nothing compares to you  
That's right

I've got nothing to do  
And nobody to see  
Nowhere to go  
And nobody to be

I'm on a ghost train  
In a ghost cloud  
And I don't know how to get out  
And get into heaven

Yeah, I just wish I could get out  
And get into heaven  
But I'm too scared to get out  
And get into heaven
