

Love Life

Girls

Too many times I've fallen in love
Just to wake up and find it all falling apart
Too many times

I guess the next time I'll just have to give it another try

Too many times I've given my heart
To someone who never wanted it from the start
Too many times

I guess the next time I'll just have to give it another try
I guess the next time I'll just have to give it another try

Too many times I've fallen in love
Just to wake up and find it all falling apart
Too many times

I guess the next time I'll just have to give it another try
I guess that next time I'll just have to give it another try
