

# Solitude

Girls

It happened just like that

I've realized my place

I'm feeling kind of small

So I can't

It's written on my face

They say

Do you stay

I'm listening to this song

Tear me all apart

I'm sleeping in my clothes next to the books

Take care of my heart

My aching heart

But if I settle down

Though it won't be with the blues

So I'll keep on moving right along

Maybe I'll settle down with you

Someday

Some you

Yeah if I settle down

Though it won't be with the blues

So I'll keep on moving right along

Maybe I'll settle down with you

Someday

Some you
