

# Substance

## Girls

It doesn't have to be this way  
I know of something  
To take the corners off  
And help you rock and roll  
Right down the road

And if you want to shape your brain  
I know a substance  
That gets rid of everything  
And helps you rock and roll  
Out of control

Who wants something real  
When you could have nothing?  
Why not just give up  
Who wants to try?  
Let go of the wheel  
Turn your ass over  
Come on take it  
It's a simple life

I never asked to feel this way  
It's something that happened  
You can just go with it, man  
You can rock and roll  
Right down the road

If you take it day by day  
Don't try to fight it  
You can do anything, yeah  
You can rock and roll  
Out of control

Who wants something real  
When you could have nothing?  
Why not just give up  
Who wants to try?  
Let go of the wheel  
Turn your ass over  
Come on take it  
It's a simple life

Who wants something real  
When you could have nothing?  
Why not just give up  
Who wants to try?  
Let go of the wheel  
Turn your ass over  
Come on take it  
It's a simple life

I take the key in my hand and it opens up the day  
I take the key in my hand and it takes the pain away (hey hey)  
I take the key in my hand and it opens up the day  
I take the key in my hand and it takes the pain away (hey hey)  
I take the key in my hand and it opens up the day

But if I had love I'd throw it all away
