

A Love Too Far

Girlschool

I reach your face
When I got blue
Cuz I gonna die
In case of unduo

I want you near me
I need to feel your hands in my
When we stay between...
Its just the way I keep to mine
Its just another way to wast of time

I can't imagine love without pain
Cuz I so scary to hurt again
I need see you
I feel so farway from you
I don't wanna miss you

Whatever we only have sometime
Better than live a lie
If you have to change your heart
I wont be the first to far
And if you have change your mind
I wont be so blind this love
I wont be so blind as all...

I need to see you
Its the only way to break the spell
I don't walk without you
And get a little nouth
I know I catch you from to far...
la la la la...
