

# Never Say Never

Girlschool

Stir up a storm with a shot of adrenalin  
Devil may care he said never again  
Yes I would if I could but you know that I can't  
Yes I know that I should but I know that I shan't

Take me to heaven and take me to hell  
To the height of the heights shall I fall, yes I fell  
Well who's calling the shots 'cause I know that I'm stalling  
Who's driving the wagon, I'm falling  
I'm falling

Chorus:

Never say never say never again, no I  
Never say never say never again

Stir up a storm with a rush of adrenalin  
Devil may care he said see you again  
Yes I would if I could but you know that I can't  
Yes I know that I should but you know that I shan't

No I

Chorus:

Never say never say never again, No I  
Never say never say never again

Shall I be taken or shall I be saved  
Because I'm runnin' round in circles but who's runnin' the show  
And you're never alone with a shot in your hand  
Well it's good bye for now because I've gotta go

Chorus:

Never say never say never again, No I  
Never say never say never again
