

Never Too Late

Girlschool

You make me so nervous when you look my way
Shiver and shake, can't think of a word to say
No control, can't let it go
Night and day, don't make me wait, no

No!
If you wanna find out
What it's all about

It's never too late to activate,
It's never too late
It's never too late to activate,
It's never too late

Well, I've been screaming blue murder waiting for this day
Take me to the limit, ooo, and take it all the way
All night long, no, we can't go wrong
Running hot, now we can go down, yeah

Yeah!
Oh, we're gonna find out
What it's all about

It's never too late to activate,
It's never too late
It's never too late to activate,
It's never too late

We're gonna find out tonight
We're gonna find out
What it's all about

It's never too late to activate,
It's never too late
It's never too late to activate
It's never too late
