

Take It All Away

Girlschool

One day you're up, next day you're down
Nothing you can do but just stay around
Trying to do your best, hoping they're can you hurry up impress
ed
But 'cause you wanna know who's next
Oooo, they're gonna take it all away

Loved you last night, loved you yesterday
But you'd better be careful just what you say
Saved all my money, saving that's a drag
But I never let them see you when you drive up in your Jag
Oooo, they're gonna take it all away

They're gonna
They're gonna take it all away
They're gonna take it all away

Loved you last night, loved you yesterday
But you'd better be careful just what you say
Saved all my money, saving that's a drag
But I never let them see you when you drive up in your Jag
Oooo, they're gonna take it all away

They're gonna
They're gonna take it all away
They're gonna take it all away

They're gonna
They're gonna take it all away
They're gonna take it all away
Better watch out!
They're gonna

They're gonna
They're gonna take it all away
They're gonna take it all away
