

Too Hot to Handle

Girlschool

I'm not like any other girl
Who'll do whatever they're told
I've gotta one track mind
Don't waste my time
I'm far too hot to handle
I won't change my ways
You better know your place
I'll do whatever I please
I'm hot property, take it from me

I'm too hot to handle
Too hot for you

Champagne on ice might be very nice
Diamonds I just adore
But you better think twice Take my advice
Don't touch what you can't afford
Feel the heat burning you up inside
From your head down to your toes
Acting so cool I'll walk all over you

I'm too hot to handle
Too hot for you.
