

Up All Night

Girlschool

Living our lives
doing what we like
We live it up
Wouldn't change a thing
always causing a scene
We're so tough

Shout out scream for more
We got what it takes
we know what its for

Up all night
Shout it in the streets
Till the morning light
Up all night

Speeding down the streets
to a new Sensation
so hot Burning in the heat
we're an outrage To the nation

Hey you don't waste time
Lets get together and take a ride

Up all night
Crawling from the wreckage
In the morning light
Up all night

I want all that I ask for
I want more than I need
I'll take all till I have more
I'm gonna make 'em bleed.
