

All the faces with one expression  
Behind the windows, we're all down at heel  
Don't expect us to do you favours  
It's just the way that we feel

Get ready for some action  
Get ready wildlife  
Get ready it's our reaction  
Get ready wildlife

Breaking loose, the only solution  
We're getting well outta line  
We don't follow, won't swallow  
They're gonna find out  
We've got our own minds

Get ready for some action  
Get ready wildlife  
Get ready it's our reaction  
Get ready wildlife

Get ready for some action  
Get ready wildlife  
Get ready it's our reaction  
Get ready wildlife

Get ready for some action  
Get ready wildlife  
Get ready it's our reaction  
Get ready wildlife
