

If You Really Wanna Say Goodbye

Giuni Russo

If you really wanna say goodbye
Turn around and walk away forever from me
And remember from this moment on
You'll be losing me forever more, you hurt me so
You will never know how much I cared for you
Time will never heal the wound you gave me
I gave you everything, to me you were a king
Take your love away and leave me alone
Take your love away and leave me alone
Go away, go away
You're a devil with a heart of stone
Once upon a time I thought you were my very own
But the truth came bitter to my eyes
Latin lover, what a big surprise you gave me
You will never know how much I cared for you
Time will never heal the wound you gave me
The songs of yesterday will slowly die away
Take your love away and leave me alone
Take your love away and leave me alone
Go away, go away
Go away, go away
Go away
Go away
Go away
