## **Enemy in me**

You know me I'm the spoiler Help me stop my lies I know you you're better Forget weekend's cry

I want you more do you feel it I want you more I cry I change the score perceive it More than before I cry cry cry cry

You know me I´m the spoiler Help me stop my lies I know you you´re better You know me I´m wicked

I want you more do you feel it I want you more I cry I change the score perceive it I hope it's not the enemy in me
