

My friend

Gladiator

Why so many people
live in a cradles?
I can see around stupid brains
I believe my friend
you are better
Let them wait for sign
in their life let them!

I call to you my friend!

That's no star in their life
only questions
What do you think about it?
You don't mind
I hate then certainly
I would like to kill
Let them see the other
angry face, my face!

I call to you my friend!
