

Send It To Me

Gladys Knight

Somebody's got a magical touch
somebody just can't get enough
you show me your love everyday
and even if you go away

you got to know I want you baby
baby baby baby

get your motor runnin'
can't you hear me honey
send it to me
put it in a letter
if that will suit you better
send it to me
send it by a plane
or put it on a train
but send it to me
when love is in the pocket
there's nothing that can stop it
so send it to me

you're my sunshine on a cloudy day
you changed my life in so many ways
when you're gone I'm not the same
I start to dream and call your name

I really really need you baby
baby baby baby baby

get your motor runnin'
can't you hear me honey
send it to me
put it in a letter
if that will suit you better
send it to me
send it by a plane
or put it on a train
but send it to me
when love is in the pocket
there's nothing that can stop it
so send it to me

deep in the night I reach out
and wish you were here with me
I lie awake and make up a fantasy
oh can't you see
you're the one that I love

get your motor runnin'
can't you hear me honey
send it to me
put it in a letter
if that will suit you better
send it to me
send it by a plane
or put it on a train
but send it to me

when love is in the pocket
there's nothing that can stop it
so send it to me

send me send me
oh send me your love
send me send me
oh send me your love
get your motor runnin'
don't move so slow honey
send me your love ...
