

The One And Only

Gladys Knight

When you find the one and only
It's like finding a needle in the hay
Every one of us is looking for love
So when loves comes along you can't let it get away

When you're someone's one, someone's one and only
And he says that he's nothing without you
When at last you know where you belong
Then you're one of the chosen few
Yes, you're one of the chosen few

Well I've found my one and only
Like the long, lonesome river finds the sea
And I can't believe how lucky I was
That you and your love were waiting around for me

You're my darling one and only
I've got no more, no more looking left to do
With a love as sweet as ours I know
That I'm one, one of the chosen few
Yes, I'm one of the chosen few
