

## Life Itself

### Glass Animals

Daddy was dumb said that I'd be something special  
Brought me up tough but I was a gentle human  
Said that he loved each of my two million freckles  
When I grew up was gonna be a superstar

I can't get a job so I live with my mom  
I take her money but not quite enough  
I sit in the car and I listen to static  
She said I look fat but I look fantastic

(2x):

Come back down to my knees  
Gotta get back, gotta get free  
Come back down to my knees  
Be like them, lean back and breathe

I'm waking up, lost in boxes outside Tesco  
Look like a bum sipping codeine Coca-Cola  
Thought that I was northern Camden's own Flash Gordon  
Sonic ray gun, gonna be a superstar

I can't get a job so I live with my mom  
I take her money but not quite enough  
I make my own fun in grandmama's basement  
Said I look mad, she said I look wasted

(2x):

Come back down to my knees  
Gotta get back, gotta get free  
Come back down to my knees  
Be like them, lean back and breathe

(3x):

Come back down to my knees  
Gotta get back, gotta get free  
Come back down to my knees  
Be like them, lean back and breathe
