

## Adoration

Glen Campbell

Adoration, adoration  
Baby, when will you get your fill  
Adulation, adulation  
You know baby, I don't think you ever will

You're always talkin' about just livin' for the moment  
An' bein' a romantic in you, you talk about freedom  
But you don't know what freedom is  
No, you don't know where freedom lives

You, you don't know, exactly what you feel  
No you, you don't know, exactly what is real  
But I'm gonna show you how it feels  
To feel goodbye

Desolation, desolation  
You finally brought it down to the same foreground  
Desperation, desperation  
You don't know how crazy you sound

You're always talkin' about, my like of class  
The way I, hold my glass  
And even though the way I smoke and  
Lord, I didn't even smoke, Lord, I didn't even smoke

But I, I met you and you had to change my hair  
And I, I met you and you had to show me what to wear  
But I'm gonna show you how it feels  
To feel goodbye
