

# Angel Dream

Glen Campbell

I dreamed you  
I saw your face  
Caught my lifeline  
When drifting through space  
I saw an angel  
I saw my faith  
I can only thank God it was not too late

Over mountains  
I floated away  
'Cross an ocean  
I dreamed her name  
I followed an angel  
Down through the gates  
I can only thank God it was not too late

Sing a little song  
Loneliness  
Sing one to make me smile  
Another round for everyone  
I'm here for a little while

Now I'm walking  
This street on my own  
But she's with me  
Everywhere I go  
Yeah, I found an angel  
I found my place  
I can only thank God it was not too late  
I can only thank God it was not too late  
I can only thank God it was not too late
