

Country Girl

Glen Campbell

About five o'clock in the late afternoon sun's gettin' drowsy a
bove me
Tonight I walk neath the sparkling moon with the girl who is ha
ppy to love me
She's my sweet country girl and she's all that I need
The whole world wears the smile when she's talking
Sweet country girl it's not hard to believe
Pretty flowers bloom wherever she's been walking uh-huh

Shadows erase in the last light of day night time is startin' t
o settle
Red colored stone Lord is leading my way to her cottage way dow
n in the meadow
She's my sweet country girl...

Green trees and golden hay and sunshine here every day
Big cities far behind me well it's love with her to think I'm a
gonna stay
About five o'clock in the late afternoon...
She's my sweet country girl yes she is
She's my sweet country girl and I love her she's my sweet count
ry girl
