

Give Me Back That Old Familiar Feeling

Glen Campbell

I keep waiting for a song to come and sing you back to me
I never felt so free as when I had you
Our rhythm was the best that's touched the likes of me
I was really me when I had you

Give me back that old familiar feeling
Let me feeling like I was someone
Give me back that song we sang in harmony
Just you and me singing together

My radio still plays the songs you like to hear
I wish you were here, oh, I need you
I'll take the time and tune the station in real clear
As if you were here, oh, I love you

Give me back that old familiar feeling
Let me feeling like I was someone
Give me back that song we sang in harmony
Just you and me singing together

Give me back that old familiar feeling
Let me feeling like I was someone
Give me back that song we sang in harmony
Just you and me singing together

Give me back that old familiar feeling
Let me feeling like I was someone
Give me back that song we sang in harmony
Just you and me singing together
