

## **Trials And Tribulations**

**Glen Campbell**

Lord, them trials and oh, them tribulations.  
I'm just tryin' to make it  
from a boy to a man and I'm just doin' it the best I can.

And I believe that true love it comes in every color  
and you know, you cannot know it at the time.  
All you can do is go on and put yourself on the line

Cause when I  
feel like I've got no love in me,  
well I might as well just pack it in.  
Cause I couldn't stand the pain.

Now you talkin' 'bout smile to smile and fabrication.  
Well don't you know that friends often go hand in hand.  
All you can do is go on and take it like a man.

Cause you see that real love it comes in all the colors  
and you know you cannot know it at the time  
All you can do is be honest and put yourself on the line

Cause when I  
feel like I've got no love in me,  
well I might as well just pack it in.  
Cause I couldn't stand the pain.

Lord, them trials and oh, them tribulations.

And I believe that true love it comes in every color
