

# High Hope

Glen Hansard

I'm workin' on the high hope  
And if it all works out, you might just see me  
Or hear from me in a while  
I'm gonna make it across this tight rope  
Then I'm comin' for my prize  
No more I'll be waitin' 'round  
While life just passes by

Maybe when our hearts realign  
Maybe when we've both had some times  
I'm gonna see you there

I'm gonna see you there, lay  
Where we can be natural, lay

Cause I've been livin' in the half life  
Not sure which way to turn  
Why must a man lose everything  
To find out what he wants

I'm gonna wait until it feels right  
And when that time has come  
Wild horses won't keep me back  
From where you have gone

Maybe when we're both old and wise  
Maybe when our hearts have had some time  
I'm gonna see you there

After all we've seen  
We can do anything, lay  
Where your heart is strong  
Where we can go on and on, lay  
Where your good times gone  
Where we are forever young, lay  
Where your heart is strong  
Where we can go on and on, lay, lay!
