

Step Out of the Shadows

Glen Hansard

We're all bound by certain forces
The same as any one
Step out of the shadows
My little one

There's a change a surely comin'
A will that will be done
Step out of the shadows
My little one
Will you step out of the shadows
My little one

Silent river, roll on
When the levees weak you're gonna break it
Silent river, deep and long
Stay the road you're gonna make it

Well a flames been handed on now
To a new wave rising strong
Step out of the shadows
My little one

There's a balance to be righted
The road goes on and on
Step out of the shadows
My little one
Will you step out of the shadows
My little one

Silent river, roll on
When the levees weak you're gonna break it
Silent river, overcome
Closer to the sea now you can make it

There's a lesson in this failing
The game goes on and on
Step out of the shadows
My little one

It's all out there for you waiting
If you're willing to become
Step out of the shadows
My little one
Will you step out of the shadows
My little one
