

## Gather

Glen Phillips

Let us be humbled tonight  
In these depths show us the light  
Give us peace, lay down the mighty  
In these depths, show us the light, please

Oh God, I pray to thee  
Don't want to die before we're free  
Dive down inside this sea  
And maybe at the bottom I'll find some key

Let us be humbled tonight  
In these depths show us the light  
Give us peace, lay down the mighty  
In these depths, show us the light, please

Oh God, I pray to thee  
Don't want to die before we're free  
Dive down inside this sea  
And maybe at the bottom I'll find some key  
Oh God, will you hear me cry  
Don't want to see another innocent die (on either side)  
Dive down inside these depths  
Keep my faith and hold my breath

The more we fight, the less it bends  
Lay down your arms, gather your friends  
Strengthen your heart and this will end  
Lay down your arms, gather your friends  
Lay down your arms, gather your friends  
Lay down your arms, gather your friends  
Gather your friends

Oh God, I pray to thee  
Don't want to die before we're free  
Dive down inside this sea  
And maybe at the bottom I'll find some key  
Oh God, will you hear me cry  
Don't want to see another innocent die  
Dive down to the deepest depths  
Keep my faith and hold my breath
