

# I Still Love You

Glen Phillips

I've seen the dark spot on your soul  
I've felt you cruel, I've held you cold  
I know the parts of you that you don't think you show  
But I still love you

I've seen you looking at yourself  
And wishing you were someone else  
Wondering if I might go and leave you all alone  
But I still love you

I love you  
Glad to be alive  
You saved me  
You didn't have to  
But I thank God

You've seen how selfish I can be  
You've seen my pettiness and greed  
But I'd forgive you anything  
For you to love me

You saw me curled up and crying  
You saw me hopeless and blind  
You loved me even though you knew  
I'd still love you too

I love you  
Glad to be alive  
You saved me  
You didn't have to  
But I thank God

I've seen the worst of you it's true  
But it's the smallest part of you  
Yeah, it's the smallest part of you  
And I still love you, I do

It's the smallest part of you  
And I still love you, I do  
I still love you  
I still love you, I do
