

I Want a New Drug

Glen Phillips

I want a new drug
One that won't make me sick
That won't make me crash my car
Or feel three feet thick

A new drug
That won't hurt my head
Won't make my mouth too dry
Or make my eyes too red

Won't make me nervous
Wondering what to do
One that makes me feel like I feel when I'm with you
When I'm alone with you

I want a new drug
One that won't spill
One that don't cost too much
Or come in a pill

A new drug
One that won't go away
That won't keep me up all night
Or make me sleep all day

Won't make me nervous
Wondering what to do
One that makes me feel like I feel when I'm with you
When I'm alone, I'm alone, with you (I'm alone)

I want a new drug
One that does what it should
It won't make me feel too bad
Or feel too good

A new drug
One with no doubt
It won't make me talk too much
Or just freak out

It won't make me nervous
Wondering what to do
One that makes me feel like I feel when I'm with you
I'm alone with you
I'm alone with you
I'm alone

Take it

(want a new drug, want a new drug
want a new drug, want a new drug
I want a new drug, I want a new drug)

Want a new drug

(I want a new drug)
