

Thank You

Glen Phillips

You made this world
You made this world
You made this world
Thank you, thank you
You gave me life
You gave me life
You gave me life
Thank you, thank you

Your love is everywhere
Your love is everywhere
Open me, open me

You sowed these seeds
You sowed these seeds
You sowed these seeds
Thank you, thank you
You brought this peace
You brought this peace
You brought this peace
Thank you, thank you

Your love is everywhere
Your love is everywhere
Your love is everywhere
Open me, open me

You kept me warm
You kept me warm
You kept me warm
Thank you, thank you
When I was in the desert
When I was in the war
When I was all alone
Thank you thank you

Your love is everywhere
Your love is everywhere
Your love is everywhere
Open me, open me

Let it come through me now
Let it come through me now
Let it come through me now
Open me Open me Open me
