

# Can't Put Out This Fire

Glenn Frey

Well, I finally got your letter today  
Think I understand what you had to say  
Your message came through loud and clear  
You gotta get away from me, and away from here

Tell myself I'm over you-then, I'm just a liar  
'Cause every time I think of you-fills me with desire  
Love is like a burnin' flame-keeps on gettin' higher  
And, I can't put out this fire, can't put out this fire  
Well, I don't know what went wrong with you and me  
Sometimes you get so close, you just can't see  
Now I'm out here standing in the rain  
Thinkin' about us and living with the pain

If I could only talk to you-then you'd understand  
If I could hold you close to me-you'd know I'm still your man  
Love is like a burnin' flame-keeps on gettin' higher  
And I can't put out this fire, can't put out this fire

You know, breakin' up is harder than it sounds  
People leave, but love still hangs around  
Memories refuse to go away  
They follow you, and haunt you night and day

Love like ours will never die-can't put out this fire  
'Cause when I think of you and I-fills me with desire  
Love is like burnin' flame-keeps on gettin' higher  
And I can't put out this fire, can't put out this fire
