

# I Got Love

Glenn Frey

Woke up this morning with a smile on my face  
Set up in bed, and looked around this old place  
Opened the window, let the sun shine in  
You see, me and my baby, we're back together again.

Jumped on the freeway with this song in my head  
I started thinkin' 'bout the things we said  
I said I'm sorry; She said I'm sorry too;  
You know I can't be happy 'less I'm happy with you.

I got love, it's my lucky day  
I got love, gonna keep it that way  
It's the sweetest gift from the heavens above  
I got you, babe, I got love.

No more staring at my blue telephone  
No more pretending I like being alone  
No more searching when the workday's done  
I get back on the freeway, head on home to number one

I got love, she's waiting for me  
I got love, she's sweet as can be  
She's the greatest gift from the heavens above  
OO, babe, I got love

When you've got love, you got to walk like a man  
You've got to bend, you've got to understand  
It won't be easy, no, no, that's not in the plan,  
But if it ain't all honey, still it's right on the money

I got love, I'm happy to say  
I got love, it's stronger each day  
It's the sweetest gift from the powers above  
I got you, babe, and I know I got love  
I got love  
I got love
