

Camel Toe Stomp

Glenn Hughes

You work and slave all day
I don't have no say in what you do
You got sunburn on your back
And I don't care to know
What you've been through

So good for you
Make me understand
Watchya gonna do
When they shake the ground

I hope you won't be late
For the camel toe stomp
And you don't wanna wait
For the camel toe stomp

All you sinners all you fools
And you come from private schools
You just live for compliments
Now you're breakin' all the rules
