

# Camel Toe Stomp

Glenn Hughes

You work and slave all day  
I don't have no say in what you do  
You got sunburn on your back  
And I don't care to know  
What you've been through

So good for you  
Make me understand  
Watchya gonna do  
When they shake the ground

I hope you won't be late  
For the camel toe stomp  
And you don't wanna wait  
For the camel toe stomp

All you sinners all you fools  
And you come from private schools  
You just live for compliments  
Now you're breakin' all the rules
