

Dark Star

Glenn Hughes

I don't want to shout it now
'Cos I am not a fool
You're askin' me the questions
And I will overrule
Down in Mississippi
On a road, they watch the sky
There's somethin' in the distance
And they choke and wonder why
It's alright
I'm gon' move
Yeah yeah
Call the military
And the secret war defense
Let's make a big production
And capture the events
I'm not a fortuneteller
Now don't you hesitate
There's no communication
And I hope it's not too late
It's alright
Hey yeah
Ah ha
It's important to you
It's important to me
It's important to everyone
Another dark star fallin'
Another dark star callin'
Another dark star fallin'
Another dark star callin'
Take it to the government
The General's in a room
Take it to the preachers
Let 'em hear the sonic boom
Slippin' into darkness
Yeah, the hours gettin' late
Now tell me do you understand
We must evacuate
Move on
Get on up
Hey
It's important to you
It's important to me
It's important to everyone
Another dark star fallin'
Another dark star callin'
Another dark star fallin'
Another dark star callin'
It's important to you
It's important to me
It's important to everyone
Another dark star fallin'
Another dark star callin'
Another dark star fallin'
Another dark star callin'
Another dark star fallin'
Another dark star callin'
