

Does It Mean That Much To You?

Glenn Hughes

I can feel you near But you're so far away I can hear your voice
across the way I can tell you now and I will promise you That
I will be here night and day

Through wasted years, I've lived with undecided love Now suddenly
I'm walking through the fear The many ways I tried now Am I
good enough? And I will be right here And I will be right here

I don't want to be the one to let you go Is it too late to change
your mind And I hope that you'll surely find your way Look no
further

Does it mean that much to you? Does it mean that much? Does it
mean that much? Does it mean that much to you? Does it mean that
much? Does it mean that much to you?

And I will go on living Such a grateful man I just want to learn
to try And I know that there's an answer deep inside of me 'Cause
we both see eye to eye

Does it mean that much to you? Does it mean that much? Does it
mean that much? Does it mean that much to you? Does it mean that
much? Does it mean that much to you?

I don't want to be the one to let you go Is it too late to change
your mind? And I hope that you'll surely find your way I just
want to be the one to let you know Is it too late to tell you
why? And I hope that you'll surely find real love Look no further

Does it mean that much to you? Does it mean that much? Does it
mean that much? Does it mean that much to you? Does it mean that
much? Does it mean that much to you?

And I will sacrifice all of my life just for you Does it mean that
much to you?
