

## In My Blood

Glenn Hughes

(Hughes/Marsh)

Moving through my system  
Rushing to my brain  
Welcome to the frontier  
And I am so glad you came

Gone is my resistance  
I was made this way  
Vision getting clearer  
I've had my darkest day

Beautiful the sinner  
Led me to believe  
I have walked the mountain  
I'm ready to receive

It's in my blood  
It's in my blood  
You know I should  
Cuz it's in my blood  
In my blood

Tie me to the anchor  
Paralyzed with fear  
You thought this was the last time  
You thought I could not hear  
It only keeps me stronger  
Now you can call it fate  
Where many men have fallen  
Preoccupied with hate

Shield me from temptation  
Barricade the door  
Here comes my guardian angel  
I could not ask for more
