

## It's About Time

Glenn Hughes

They say that nothin's better  
To feel you in my arms  
You know I'm out to get ya  
So why won't you come back to me baby  
And it's about time  
I need you baby, I need you so  
I love you baby, don't you know  
Come to me woman, every night  
You know what baby, you're clean outta sight  
You're clean outta sight  
Oh you're clean outta sight  
You left this home with heartache  
You really should have known  
It's only for your own sake  
So why can't you come back to me baby  
I need you baby, I need you so  
I love you baby, don't you know  
Come to me woman, every night  
You know what baby, you're clean outta sight  
You're clean outta sight  
Oh you're clean outta sight
