It's About Time

Glenn Hughes

They say that nothin's better To feel you in my arms You know I'm out to get ya So why won't you come back to me baby And it's about time I need you baby, I need you so I love you baby, don't you know Come to me woman, every night You know what baby, you're clean outta sight You're clean outta sight Oh you're clean outta sight You left this home with heartache You really should have known It's only for your own sake So why can't you come back to me baby I need you baby, I need you so I love you baby, don't you know Come to me woman, every night You know what baby, you're clean outta sight You're clean outta sight Oh you're clean outta sight
