It's Alright

Glenn Hughes

I don't want 2 talk about confusion I don't want it livin' in my head I just want 2 talk about a solution Do u understand, remember what I said? ! U can take all my money Now I'm singin' my song And I think that it's funny Why did I wait so long? It's alright if I'm dreaming It's alright, what's the moaning? It's alright, face the measure It's alright, take the pressure! I'm livin' in a different generation I'm livin' with an automatic mind Now tell me can u feel the new vibration? Now I just want 2 hear it one more time You can take all my money Now I'm singin' my song And I think that it's funny Why did I wait so long? It's alright if I'm dreaming It's alright, what's the moaning? It's alright, face the measure It's alright, take the pressure! It's alright if I'm dreaming It's alright, what's the moaning? It's alright, face the measure It's alright, take the pressure!
