

Lay My Body Down

Glenn Hughes

I've been travelin' for so many days
Through the valleys I have gone
I've been searchin' in so many ways
For the things that I have done
Now I ask you, do you love me?
And don't tell me any lies
I will keep on ridin' in the early morning light
'Til they lay my body down
Behind the conscience of every man
Is a thing we all must trust
As I look across the land
I see shadows in the dust
So how can you judge me
When you don't know me?
I know you'll miss me when
I'm dead and gone
I will keep on ridin' in the early morning light
'Til they lay my body down
So close your eyes and you will find me
I'll be watching over you
I will be with you, you'll feel my spirit
I know your faith will put you through
Now, I ask you, do you love me?
And don't tell me any lies
I will keep on ridin' in the early morning light
'Til they lay my body down
I will keep on ridin' in the early morning light
'Til they lay my body, 'til they lay my body
'Til they lay my body down
I know you'll miss me, I know you'll miss me
