

## Lost in the Zone

Glenn Hughes

You want to be somebody But you don't see the writing on the wall  
You don't need nobody I can see you're gonna take a fall I heard  
you saying You could feel a new vibration going down Love is fading  
And I hope you're gonna come around

You got nothing to fear You got so much to burn Isolate on the  
hillside When will you ever learn See the fire in me Is the evil  
in you Now you've had all your chances Gonna break you in two

When you're out on your own And you feel like a rolling stone  
And you're all alone Then you know you're lost in the zone

Bad thing You're the proudest child I've ever seen You bring a  
whole new style Do you know what I mean I do worry about the people  
Who do make you weak You gotta hurry And you better think twice  
Before you speak
