## **The Valiant Denial**

## **Glenn Hughes**

You've been misled By the thoughts in your head Entangled with your dark endeavor Your angels tread And the blood has been she d I'm telling you it's now or never

Lost in a stream With you own malady For as long as you know An d forever In god you depend When it comes to the end Such a long way to go Such a long way to go

The valiant denial The great untold The valiant denial The lies unfold The valiant denial The great untold

I wonder why And you never reply It's always the same with your ego Caught in a lie I just cannot rely You're filled with the shame But you don't know

You raise the shield You will never be healed Such a long way to go Such a long way to go

The valiant denial The great untold The valiant denial The lies unfold The valiant denial The great untold

The valiant denial
