

# This Is How I Feel

Glenn Hughes

This is how I feel This moment This is how I feel Right now

Don't know what will be tomorrow Take it all the way Take it all the way

I'm on the ladder The sun is shinin' And nothin' stands in my way I say goodbye to the fear Goodbye to the fear

And it don't matter, I need remindin' Come with me, don't be afraid And I know just why I'm here Know just why I'm here

This is how I feel This moment This is how I feel Right now

Don't know what will be tomorrow Take it all the way Take it all the way

I'm on a wave in the clear blue water And theres' no cloud in the sky And I know just what it is And I know just what it is Cuz I'll be safe And you know I oughta And I'm not livin' to die And you know I can't resist Know I can't resist

This is how I feel

And I know what I see There's so many things I want to be And I always wonder why Just what is meant to be And I only wanna say Just what I really feel

This is how I feel This moment This is how I feel Right now

Don't know what will be tomorrow Take it all the way Take it all the way Take it all the way
