

This Time Around

Glenn Hughes

The world around us hangs in doubt
You face a crime that we'll hear about
To pay the cost, would never be the same
Eternal lovers, we're not to blame
There's no mistake, there's no refrain
The same surroundings that stood
Are here again - this time around
As I look around you can't be found
To lose you, I'd rather see the endless
Time and space go passing by
This time around
This time around
So look around, we all will be found
In love
The world around hangs in doubt
You face a crime that we'll hear about
To pay the cost, would never be the same
Eternal lovers, we're not to blame
There's no mistake, there's no refrain
The same surroundings that stood
Are here again - this time around
As I look around, you can't be found
To lose you, I'd rather see the endless
Time and space go passing by
This time around
This time around
