

Simple Things

Glenn Lewis

Living life early morning love
Summer days and getting paid
Friends from around the way
Rain done gone away

Favorite songs knowing where you belong
No place like home
Whatever your vice
That got you nice at any price

And it feels so good
The way it should be
The way it feel
So good to me
Make me feel, so real, real, yeah
Said it's alright, said it's alright

Family shade from a tree, special memories
'Bout the way it used to be
Hanging on the corner
Doing what you wanna, so happy

Out at the movies with ya love
Feeling high above
Any troubles you'd have
Just being glad to be alive and it's alright

It feels so good
The way it should be
The way it feel
Is so good to me
Make me feel, so real, real, yeah
It's alright, said it's alright, great

It feels so good
The way it should be
The way it feel
Is so good to me
Make me feel, so real, real, yeah
I know it's alright, said it's alright

A warm smile from a child
Taking in the game
The scent of spring rain
A day to relax a sensation of climax

It's the way it should be
The way it feel
Is so good to me
Make me feel, so real, real, yeah
I said it's alright, said it's alright

And it feels so good
The way it should be
The way it feel
So good to me
Make me feel, so real, real, yeah, yeah, yeah

I said it's alright, said it's alright

I said it feels good

I said this is the way it should be

The way it feel

Is so good to me

Make me feel, so real, real, yeah, yeah

I said it's alright, said it's alright, yeah
