

All I'm Missing Is You

Glenn Medeiros

Oh!

I got these friends
They walk around so considered
Bragging to the end
Like a car and clothes is all that's needed
What about the simple part
The affair of the heart
Without love
It's never gonna be enough

I got the toys
I got the car, I got the friends, but
Hanging with the boys
Is not the kind of time I want to spend, but
I know there's something more
Something I've been waiting for
I knew it was true
The moment I saw you

In my heart, in my head, in my life, in my bed
All I'm missing is you
Every day, every night of my life would be right
All I'm missing is you
Oh girl
All I'm missing is you
Yeah

Doing all I can
But every since I met you baby
I'm a traveling man
And only your sweet love can save me
I'm reaching out to you
Baby what else can I do
But it's gonna be right
To get you into my life

In this crazy world
I've been searching for the answer
Then I saw you girl
I found out what my heart's been after
Could have been another day
But if I looked the other way
Then I wouldn't have known
What I've been missing all along

In my heart, in my head, in my life, in my bed
All I'm missing is you
Every day, every night of my life would be right
All I'm missing is you
Oh girl
All I'm missing is you
Yeah

With all that I know
All that I
There is still this emptiness

Fill me with you
Girl, you know, I got it going on
But all I'm missing is you

You baby, oh yeah, all I'm missing is a-you!

In my heart, in my head, in my life, in my bed
All I'm missing is you
Every day, every night of my life would be right
All I'm missing is you
Oh girl
All I'm missing is you
Yeah

I need your lovin' (give me that love)
Gimme that lovin' (huh!)
All I'm missing is you

In my heart, in my head, in my life, in my bed
All I'm missing is you
Every day, every night of my life would be right
All I'm missing is you
Oh girl
All I'm missing is you
Yeah

Wish you in my head
Wish you in my bed, babe

Wish you in my head
Wish you in my bed, babe
