

Fallin

Glenn Medeiros

I was alone and I've been thinkin'
How love has taken its toll on me
I opened my heart and was cheated again
Then you walked in
Last thing I needed was to fall for another
But I got this feelin' you can make me forget
One night can leave you broken hearted
Too late now I've already started

Fallin'
And deeper I go the more I'm believing
But my heart needs to know
I'm fallin'
And maybe this time I can hold on to love
'Cause I want it enough can't you see that
I'm fallin'
Forever and always that's the promise she made
Only words that will soon fade away
And I believed her but never again
That's what I said
Last thing I needed was to fall for another
But I got this feelin' you can make me forget
One night can leave you broken hearted
Too late now I've already started
